We were able to reach growth in an international market, where the most up-to-date IT solutions have to be combined with innovative document security elements for offering competitive products. The market acknowledges our developments, therefore the Printing Company’s export sales increases year by year; in 2017 it amounted to USD 44 million. The Board of Directors appreciated the Company’s economic situation and decided again, similar to previous years that the total net income can be paid as dividend, therefore it proposes to the AGM payment of HUF 79 dividend per share.”* – commented **Gábor Zsámboki, CEO of ANY Security Printing Company PLC.**
