

MASTERPLAST Nyrt. (H-8143 Sárszentmihály, Árpád u. 1/A.; „Company”) hereby informs the honourable Investors that the Company investigated the possibility of reopening the polystyrene production suspended temporarily at the Sepsiszentgyörgy site in Romania at the end of 2017, and still did not find it economical. Accordingly the Company decided to terminate production definitively. Management has begun to further utilize the site and the manufacturing tools.
