

## Extraordinary Announcement of 4iG Plc. on implementing a Transformation Program

4iG Public Limited Company ("4iG") hereby informs the participants of the capital market that the Transformation Programme ("Programme") launched on 13 November 2023 has reached its first significant milestone with the decision of "ANTENNA HUNGÁRIA" Zrt. as the sole (100%) owner (founder) of DIGI Távközlési és Szolgáltató Kft. ("DIGI") and Invitech ICT Services Kft. ("Invitech") to separate these subsidiaries by way of a spin-off.

At this stage of the Programme, the infrastructure units of DIGI and Invitech will be spun off, leaving the commercial and infrastructure divisions to operate in separate companies. The commercial companies will operate under the unchanged names DIGI Távközlési és Szolgáltató Kft. and Invitech ICT Services Kft., while the infrastructure companies will operate under the names D-Infrastruktúra Távközlési Kft. and Invitech ICT Infrastructure Kft. The spin-off date has been set by the companies as 30 June 2024, with the first day of operation under the new structure being 1 July 2024.

4iG will continue to keep investors informed about the Programme and its implementation status, in line with its previous practice.
