Again, strong KPI's

Duna House today morning released it preliminary KPI's for the second quarter. At first glimpse, numbers paint a strong tailwind for Duna House.

Every figure showed a robust increase on a yearly basis. On a segment breakdown:

- Franchise real estate brokerage activities were able to maintain its dynamic and continue to grow by ca. 20% in Q2
- Revenue from own office segment increased by 5% y-o-y, despite the fact that revenue from the Czech operation fall back.
- Intermediated loan segment exhibited stellar results again, growing by ca. 42% y-o-y. This quarter Duna House achieved the highest intermediated loan amount on record (HUF 23.5 billion).

On a country level, Hungarian operation seems to perform quite well, while in Poland Franchise segment's numbers indicate lagging performance compared to other business lines. The reason for this according to Duna House is that the Company closed 9 underperforming offices and opened 5 new ones in this quarter, but consequently average commission / office have improved.

HUNGARIAN AND POLISH OPERATION'S KPI's (2016 Q1 = 100%)

Opinion: Based on the KPI's Duna House should have a strong profit in Q2. We highlighted that one of the main driver of the profit of Duna House core operation is the loan intermediation segment which achieved decent numbers in the last three months. In light of the underlying trends we reiterate our Buy recommendation for Duna House.
